Answer 6.

Ongoing - monthly

Question 7.

Will the cost be to identify grants for 1 project and cost to write 1 grant.

Answer 7.

Not unit pricing, but ongoing all inclusive support

Grant identification costs can vary depending on whether the grants are being identified for one project or ten projects and whether grant identification on an "ongoing" basis occurs monthly or quarterly. Grant writing costs can vary depending on the quantity and complexity of grants being pursued. It would seem NWACC might be requesting unit pricing for these services, i.e. the cost to identify grants for 1 project and the cost to write 1 grant. Thus excluding quantity/frequency to account for multiple projects and multiple grants.
